This is really amazing.

On CNN this afternoon Sciutto specifically said that the Free Beacon paid for part of the dossier.

This is simply not true according to both the Free Beacon and Glenn Simpson of Fusion GPS.

See next tweet.

There is absolutely no truth to this. CNN did not provide or script questions for anyone in last night's town hall, nor have we ever.

After seeing an interview with Colton Haab, we invited him to participate in our town hall along with other students and administrators from Marjory Stoneman Douglas High School. Colton's father withdrew his name from participation before the forum began, which we regretted but respected. We welcome Colton to join us on CNN today to discuss his views on school safety.
